TABLE OF CONTENTS

Our tile offering includes some of the most beautiful and fashion-forward designs on the market today, and we support our tile program in two distinct ways.

Stocked tile means just that – we carry inventory on-hand and are able to fulfill orders within a matter of days. Stocked tile can be seen on display in our showrooms, and we provide samples as they are available. We promote stocked tile through our wing boards and racks for dealer showrooms, binders for our A&D customers, and this catalog. You'll also find all of our stocked tile along with technical information on our website.

Non-Stocked tile Non-Stocked tile encompasses both full lines, as well as additional colors and/or sizes within a stocked series that we do not stock. This tile is offered with an extended lead time, depending on the supplier and material. Your salesperson can answer specific questions on lead time. Non-stocked tile is promoted via our A&D binders, displays and printed catalog. These items are also listed in this catalog. Full non-stock lines can also be found on our website.

Note: All tile sizes listed are nominal.
